July 2015: financial strength of the Bank reaffirmed by a strong tier 1 ratio

At June 30, 2015, BCP's Tier 1 capital ratio amounted to 20.7%. This ratio, based on the Basel III Committee guidelines, is determined by dividing the eligible common equity tier 1 capital by the risk-weighted assets. Well above the 10.5% threshold required by the Swiss regulator FINMA, this figure is a core measure of BCP's soundness.
